To: Dwight Vigness
Subject: Jerrod Montelongo - Justification for increase

Jerrod, since onboarding with Yellowstone County last year has become proficient in in network configuration and changes. This is done often to handle changing requirements around different events at the Metra. Jerod also can now handle Firewall configurations which is necessary for some specialized events. He has a thorough understanding of overall network security. Jerrod has learned server patching, storage changes and overall server security. He now can handle Active Directory account creation and changes and understands permissions around. He also understands the DUO authentication application and makes access changes around this product. Since onboarding over a year ago, he has gotten a good grasp and understanding of the requirements for each event out at the Metra and has a good report working with the team there. Jerrod has very good communication skills and keeps the team here informed on everything happening there. He works closely with the folks for each event making sure they get what they need from an I.T. perspective to have a successful event.

Steve Yagodzinski - I.T. Director
