MISSION

The Yellowstone County DUI Task Force represents a diverse cross-section of the community. It is comprised of concerned citizens, law enforcement, prosecutors, educators, prevention specialists, counselors, and area business partners. In a collaborative effort, the Task Force works to reduce the number of alcohol and drug-related incidents by promoting public education, legislative development, and effective enforcement strategies.

VISION

The vision of the Yellowstone County DUI Task Force is to lead prevention efforts in our community through public advocacy, education, funding, enforcement, and networking. To accomplish this, the DUI Task Force will:

- Proactively enhance public awareness on the risk of impaired driving through social media and other technology-based systems.
- Boost current collaborative network and strategic partnerships.
- Continue the current RFP process by soliciting applications and then awarding funds according to county policies and procedures.
- Maintain an energetic and engaged DUI Task Force board that ensures compliance with its mission based on non-profit best practices for board governance.
- Retain a well-trained coordinator charged with coordinating DUI Task Force efforts in carrying out the strategic plan and documenting the results.

EVALUATION

Outcomes to the strategies described in this plan will be reported at meetings and monitored quarterly. Yellowstone County DUI Task Force presents its program report to the county commission each year.

BUDGET

The Yellowstone County DUI Task Force receives funds from 50% of driver’s license reinstatement fees collected in Yellowstone County pursuant to Section 61-1-107 and 108, Montana Code Annotated. The funds are generated by individuals convicted of DUI and other traffic violations who pay a $200 reinstatement fee to the State to get their license back. One half are deposited in the State’s General Fund and the other half is disbursed on a quarterly basis to task forces throughout the State. The proposed budget for fiscal year 2022 as presented to the County Commission is included in this plan.
**NATIONAL & LOCAL OVERVIEW**

**Impaired driving is deadly.** Every day, about 30 people in the United States die in impaired driving crashes—that is one person every 45 minutes! According to the National Highway Traffic Safety Administration, impaired-driving crashes claim more than 11,000 lives per year. Approximately one-third of all traffic crash fatalities in the United States involve impaired drivers with blood alcohol concentrations of .08 or higher. In 2020, there were 11,654 people killed in preventable crashes. From 2011-2020, about 10,500 people died every year in impaired-driving crashes.¹

**Impaired driving is a crime.** Driving a vehicle while impaired is a dangerous crime. Tough enforcement of impaired-driving laws has been a major factor in reducing impaired-driving deaths since the 1980s. Criminal charges range from misdemeanors to felony offenses, and penalties for impaired driving can include driver’s license revocation, fines, and jail time. For the individual offender, a first-time DUI offense can cost a driver upwards of $10,000 in fines and legal fees.¹

**Impaired driving is financially burdensome.** The CDC’s last report reflected over $44 billion cost to society in deaths and damages from DUI crashes. Statistics shared by the Administrative Office of the Courts in 2022 shows alcohol-related crashes in the United States to cost about $51 billion each year.²

**Impaired driving hurts our youth.** Car crashes are the leading cause of death for teens, and 37% of crashes in 2019 involved an underage drinking driver.³ In 2019, 29% of young drivers 15 to 20 years old who were killed in crashes had BACs of .01 g/dL or higher. To reduce alcohol-related fatal crashes among youth, all states have adopted a minimum legal drinking age of 21. NHTSA estimates that minimum-drinking-age laws have saved 31,959 lives from 1975 to 2017. Yet in 2018 the highest percentage of impaired drivers (with BACs of .08 g/dL or higher) were 21- to 24-year-olds at 27%.

**Impaired driving affects Yellowstone County & Montana.** Data from 2020 indicates that 66% of all fatalities in Montana were the result of impaired driving; up 8% from 2019.⁴ A 2019 report, showed we had one of the highest fatality rates in the nation for number of deaths caused by impaired drivers per vehicle mile traveled.⁵ In Yellowstone County, a young driver was involved in 21% of all crashes, with 15% involving a fatality and 12% involving a fatality and a serious injury.⁶

²http://www2.courtinfo.ca.gov/stopteendui/teens/facts/
³FARS 2019 Annual Report
⁴https://www.mdt.mt.gov/visionzero/plans/impaired.aspx;
Yellowstone County is the most populous county in Montana, with approximately 167,146 residents. It is estimated that 23.3% of the population is 18 or under and 17.4% are over 65.\textsuperscript{1} The county is comprised of 2,633 square miles. It is traversed by 9 major highways, including I-90 and I-94.

The Yellowstone County DUI Task Force, in partnership with local law enforcement agencies began tracking DUI Arrest statistics beginning in the 4th Quarter of 2015. This effort will continue.

\textsuperscript{1}https://www.census.gov/quickfacts/fact/table/yellowstonecountymontana,US/PST045221 (July 2021)
Given its status as the most populous county in Montana, it is not surprising that between 2011-2020 Yellowstone County DUI remained statistically relevant when it came to DUI:

PERCENT OF CRASHES BY COUNTY THAT WERE IMPAIRED DRIVER INVOLVED:

- Yellowstone County: 16.2%
- Missoula County: 10.7%
- Flathead County: 10.4%
- Gallatin County: 9.4%
- Cascade County: 6.9%

IMPAIRED DRIVER INVOLVED CRASHES (2020):

- Montana: 1,983
- Yellowstone County: 326
  (10 less than 2019)
- Flathead County: 232
- Missoula County: 182
- Cascade County: 154
- Gallatin County: 147

IMPAIRED DRIVER INVOLVED FATALITIES (2020):

- Montana: 124
- Flathead County: 11
- Lake County: 10
- Yellowstone County: 8
- Big Horn, Cascade, Missoula & Park Counties: 7
- Jefferson County: 6

IMPAIRED DRIVER INVOLVED SERIOUS INJURY CRASHES (2020):

- Montana: 208
- Gallatin County: 17
- Flathead County: 16
- Missoula County: 14
- Yellowstone: 12
- Lake & Roosevelt Counties: 10
- Lewis & Clark Counties: 9

All data based upon most recent crash data available from Montana Department of Transportation, online at https://www.mdt.mt.gov/publications/datastats/crashdata.aspx (2011-2020)
Accomplishments of the Yellowstone County DUI Task Force 2021-2022

From July 2021 through May 2022, the Yellowstone County DUI Task Force implemented proposed programs in addition to adding a number of community events to increase public awareness regarding the prevalence of DUI.

2021-2022 ISSUE #1: AVAILABILITY AND COMMUNITY ACCEPTANCE OF DRUGS, ALCOHOL, MARIJUANA, AND PRESCRIPTION DRUG ABUSE

- Increased presence at community events where significant drinking is expected, including Ales for Trails where we passed out water bottles with our logo and inquired about rides home as people left the event.
- Supported alcohol-free alternative activities such as Graduation parties and March Against Drugs and Violence.
- Financed seasonal ad campaigns targeted during “drinking” holidays such as St. Patrick’s Day, Memorial Day weekend, Fourth of July, Labor Day weekend and New Year’s Eve to raise awareness about the presence of DUI.
- Conducted Angel Tree and Award of Merit Ceremony to honor victims & law enforcement officers.
- Continued our Community 7 DUI Task Force show which highlights issues in drinking and driving and spotlights community members who work in prevention and enforcement.
- Supported informational campaigns demonstrating dangers of underage drinking and drinking and driving during high school through our social media presence.

2021-2022 ISSUE #2: HIGHER RATES OF UNDERAGE AND ADULT DRINKING, AS WELL AS ADDICTION WHEN COMPARED TO THE REST OF THE NATION

- Supported peer-to-peer social-norming campaigns targeting the misconception of the acceptance of high-risk behavior in young adults by supporting MSU-B Heroes in their social norming campaign TGIT: Thank Goodness It’s Friday.
- Facilitated partnerships between youth and adults in preventing underage drinking and high-risk behavior through partnership with the MSU-B police department.
- Provided support for at-risk youth by instituting the Roger Gordon Memorial Scholarship through MSU-B; the scholarship was awarded to a student who has personal experience overcoming hardships and is focused on contributing to mental health fields.

2021-2022 ISSUE #3: ENFORCEMENT AND PROSECUTION OF DUIS AND OTHER DRUG AND ALCOHOL-RELATED OFFENSES

- Continued to dialogue with legislators regarding the limitations of current laws, and potential ways to strengthen laws with several members taking an active role in bringing the recently failed legislation to revise current DUI laws in the State of Montana.
- Supported law enforcement through training, funding for overtime DUI patrols and other high visibility law enforcement, and state-of-the-art equipment.
2021-2022 ISSUE #4: LACK OF GOOD DATA ON EFFECTIVENESS OF PSAs & OTHER PREVENTION MEASURES TO DETER SEVERE IMBIBING AND IMPAIRED DRIVING

总队 Task Forces throughout the State continue to struggle with the lack of good data on the effectiveness of PSAs.

* Our task force partnered with Sylvestri Customization to track our reach on social media. See Appendix for social media reports.

2021-2022 ISSUE #5: IDENTIFY AND CONNECT WITH YELLOWSTONE COUNTY RESIDENTS ON A LOCAL, MORE IMPACTFUL LEVEL

* Continued a driving social media campaign to connect with the Yellowstone County community on a local level through partnership with Sylvestri Customization. Conducted a DUI Education media campaign that attacks the issue of impaired driving by delivering impactful messaging to increase the appearance of enforcement, stress embarrassment, feature local trends and stats, and build awareness around fines and penalties.

THE YELLOWSTONE COUNTY DUI TASK FORCE’S COMMUNITY PRESENCE INCLUDED BOOTHs AND/OR PRESENTATIONS AT:

- ALES FOR TRAILS
- THE NILE
- BLUE LIGHT CEREMONY
- ANGEL TREE CEREMONY
- HOLIDAY PARADE

For our participation at Ales for Trails this year, we elected to provide water (recycling included) for the event.

Increase presence at community events where significant drinking is expected, along with promotion of alternative transportation such as Designated Driver program and Taxis.

Support alcohol-free alternative activities such as Graduation parties, Treatment Court client activities, and March Against Drugs and Violence.

Seasonal ad campaigns targeted during “drinking” holidays such as St. Patrick’s Day, Memorial Day, Fourth of July, Labor Day, and New Year’s Eve.

Conduct Angel Tree and Award of Merit Ceremony to honor victims and law enforcement officers.

Community 7 DUI Task Force Show which highlights issues in drinking and driving and spotlights community members who work in prevention and enforcement.

Support alternative forms of transportation to prevent impaired driving.

Support peer to peer social-norming campaigns targeting the misconception of the acceptance of high-risk behavior in young adults.

Support informational campaign demonstrating dangers of underage drinking and drinking and driving during high school.

Continue to expand presence on social media and include boosts into budget to ensure the message reaches more users and supports alternative transportation through RFP process.

Continue to support alternative activities through RFP process.

Continue ad campaigns, including Labor Day, Holiday, Memorial Day/Graduation utilizing television, radio and print.

Continue to conduct Angel Tree/Award of Merit ceremony in December.

Continue to fund the community access television programming and look for new dynamic guests to interview.

Continue to partner with safe ride programs and explore support for innovative alternative transportation such as Uber.

Continue to support MSU-B HEROES in their social-norming campaigns and support the March Against Drug and Violence.

Continue to target social media presence to underage populations.
## Issue #2: Higher rates of underage and adult drinking, as well as addiction when compared to the rest of the nation

<table>
<thead>
<tr>
<th>Intervention Activities</th>
<th>RFPs and Projects to Address Issues</th>
</tr>
</thead>
<tbody>
<tr>
<td>Support programs which decrease youth access to drugs and alcohol, such as Prescription Drug Take-Back programs, and high visibility alcohol enforcement.</td>
<td>Explore partnerships with Montana Crime Prevention Coalition, Billings/Yellowstone County Drug Prevention Planning Committee and Yellowstone County Consortium for Safe and Drug Free Schools.</td>
</tr>
<tr>
<td>Provide support to families struggling with substance abuse and develop program for early intervention of children at high risk of substance abuse or future DUI.</td>
<td>Provide funding through RFP process for DUI courts and Family Drug Court.</td>
</tr>
<tr>
<td>Support peer-to-peer social-norming campaigns targeting the misconception of the acceptance of high-risk behavior in young adults.</td>
<td>Continue to support MSU-B HEROES in their social norming campaigns and reach out to similarly organized student group(s) at Rocky Mountain College.</td>
</tr>
<tr>
<td>Facilitate partnerships between youth and adults in preventing underage drinking and high-risk behavior.</td>
<td>Invite members of college groups to attend monthly meetings of the Yellowstone County DUI Task Force and invite a student representative to sit as a full-voting member of the Task Force.</td>
</tr>
<tr>
<td>Provide support for at risk youth.</td>
<td>Continue scholarship program to award an MSU-B college scholarship based on personal experience and professional aspirations in the area of substance abuse to students who are sophomores through graduate students enrolled full-time in the Counseling and Rehabilitation, Psychology, Sociology, or Criminal Justice programs.</td>
</tr>
</tbody>
</table>
Issue #3: Enforcement and prosecution of DUls and other drug and alcohol-related offenses

Intervention Activities
Continue to dialogue with legislators regarding the limitations of current laws, and potential ways to strengthen laws.

Support law enforcement through training, funding for overtime DUI patrols and other high visibility law enforcement, and state-of-the-art equipment.

Reward community participation in DUI enforcement.

RFPs and Projects to Address Issues
Reach out to local legislators and invite each to attend either a monthly meeting or attend public events.

Support law enforcement training through RFP process.

Support funding for OT patrols through RFP process.

Support purchase of state-of-the-art equipment through RFP process.

Continue the RAID (Report All Impaired Driver) Coin program to acknowledge DUI reporters for making reports and testifying at trial by presenting them with an honorary DUI Task Force coin.

Issue #4: Identify and connect with Yellowstone County residents on a local, more impactful level

Intervention Activities
Initiate a driving social-media campaign to connect with the Yellowstone County community on a local level.

Maintain current efforts to raise awareness of DUI around the rodeo culture.

RFPs and Projects to Address Issues
Continue contract with Sylvester Customization to conduct a DUI Education media campaign that attacks the issue of impaired driving by delivering impactful messaging to increase the appearance of enforcement, stress embarrassment, feature local trends and stats, and build awareness around fines and penalties.

Continue DUI Task Force presence at local rodeos through resident rodeo clown, Trooper Barrelman.
The Yellowstone County DUI Task Force meets the third Thursday of each month in the County Commissioners Board Room on the third floor of the Stillwater Building. The meetings begin at noon. The exception to this, in the month of December, we do not hold a regular business meeting but instead conduct the Angel Tree/Award of Merit Ceremony in the Courthouse Lobby.

MEETING INFORMATION IS POSTED:

The purpose of evaluation is to: 1) measure progress towards goals, 2) ascertain whether a process or program is working, and 3) to adjust activities accordingly. Evaluation results can also be used to promote the work of the task force in the community. Location-specific projects will offer both positive and negative feedback to adopt and modify better policies before implementation on a countywide basis or further distribution across the state.

The Yellowstone County DUI Task Force will evaluate three levels of outcomes: process outcomes, intermediate outcomes, and long-term outcomes.

**PROCESS OUTCOMES**
- DUI Task Force Coordinator will keep records of attendance at meetings and business conducted at task force meetings through minutes.
- Task Force will track process outcomes for activities such as:
  - Number and demographics of people participating or impacted
  - Frequency of activities
  - Equipment purchased
  - Training facilitated
  - Funding leveraged

**INTERMEDIATE OUTCOMES**
Connect with the Yellowstone County community in a more impactful way.
- Through Sylvestri Customization, the Task Force will utilize a myriad of measurements to assess the impact and effectiveness of its social media campaigns. Some of these reporting tools include overall number of impressions, number of interactions, comments, cost per engagement, and application downloads. We will also ask social media users to actively pledge to not drink and drive and will measure responses. We will use arrest reports and public surveys to measure the amount of recognition of the campaign and dangers of DUI.

**LONG-TERM OUTCOMES**
Long-term outcomes will be measured using Montana Department of Transportation reports and location-specific data on any pilot projects implemented and monitored by members or representatives of the Task Force. Progress towards long-term outcomes will be examined annually.
The Yellowstone County DUI Task Force submits this Strategic Plan in accordance with statute and as requested by the Montana Department of Transportation. Attached to this plan is a spreadsheet that contains the proposed budget for 2023 fiscal year.

Yellowstone County DUI Task Force Case Study

Protecting Our Roads: Yellowstone County DUI Task Force Case Study

Yellowstone County DUI Task Force faces the daunting challenge of reducing impaired driving in the most populous county in Montana which has a notoriously high impaired driving rate. Many strategies have been implemented to curb the number of impaired drivers with great success. However, historically media and mass messaging has always had the inherent problem of tracking and realizing reach and true engagement of materials. That is when the Yellowstone County DUI Task Force jumped in with both feet and looked to harness social media marketing to improve Yellowstone County road safety.

Right Fit, Right Time, Right Message:

The Yellowstone County DUI Task Force partnered with Sylvestri Customization, a marketing firm specializing in impaired driving messaging and outreach. The goal was to increase the base of support, reach an audience who was at greater risk of impaired driving, and engage the audience with information that was both educational and behavior changing.

Audience and Demographic:

Not all drivers are created equal and our goal is to find, message, and engage with those individuals and demographics more likely to get behind the wheel impaired.

MORE THAN A COIN

EFFECTIVE IMPAIRED DRIVING PREVENTION THROUGH COMMUNITY OUTREACH

Overview: Protecting our roads and eliminating impaired driving can’t be done by one person, agency, or organization—it takes everyone working together. That was the sentiment that spurred the Yellowstone DUI Task Force to challenge and recognize citizens who help to do their part to keep impaired drivers off the road. That’s how the RAID Challenge Coin Project started and has flourished in early implementation.

The program aims to highlight and recognize community members who take initiative to keep our roads free from impaired drivers by calling in a RAID Report (Report All Impaired Drivers). After a successful contact and citation, stemming from a RAID report, the DUI Task Force and Yellowstone County Law Enforcement recognize the individual with a custom DUI Task Force Challenge Coin.

PROGRAM BENEFITS:

- Positive community relationship building
- Incentivize RAID reports
- Create community ownership of drunk driving prevention initiatives
- Increase community perception of patrol and the likelihood of being caught

Yellowstone County DUI Task Force Strategic Plan
The Yellowstone County DUI Task Force added two names to a plaque Thursday afternoon, recognizing people who have lost their lives to impaired drivers in the county.

The names of Haley Hutzenbiler and Gary Elmo Phelan, Sr. were added to the plaque in a small, limited-capacity ceremony at the Yellowstone County Courthouse. Hutzenbiler was killed by a drunk driver in 2018, and Phelan, who was killed by an impaired driver in 1998, was finally recognized in the ceremony after being listed as "unknown" until this year.

Following the Angel Tree Ceremony, awards of merit were handed out to law enforcement officers from multiple agencies in the county. Trooper Brennan Plucker of Montana Highway Patrol, county attorney Victoria Callender, Sgt. Harrison Gillen of the Yellowstone County Sheriff’s Office, Officer Eric Schnelback of the Billings Police Department and Officer Jackson Booth of the Laurel Police Department were all recognized for their commitment and contributions to the task force.

Darla Tyler-McSherry, coordinator for the Yellowstone County DUI Taskforce, hangs an ornament for Gary Elmo Phelan Sr. on the Angel Tree as Cpt. Kent O'Donnell watches Thursday at the Yellowstone County Courthouse in Billings. Phelan Sr. was killed by a drunk driver in 1998, but his identity was listed as unknown by the Taskforce until this year.

Family members of Haley Hutzenbiler accept an ornament from Darla Tyler-McSherry during the annual Angel Tree Ceremony Thursday, Dec. 17, 2020 at the Yellowstone County Courthouse in Billings. Hutzenbiler was killed by a drunk driver in 2018.

It’s a big problem that destroys lives in Montana.

According the Centers for Disease Control and Prevention, Montana ranks above the national average per capita for alcohol-impaired driving deaths.

The Yellowstone County DUI Task Force aims to change that for alcohol and drugs.

The group finished the first Big Sky Drug and Alcohol Symposium Friday at the DoubleTree by Hilton Hotel in Billings.

The plan was to have the symposium last year but because of COVID, it had to be canceled. So organizers brought it back this year.

And it was really important for the Yellowstone County DUI Task Force to bring this together and meet in person to talk about the issues for two days.

Lt. Robert Lester, Yellowstone County Sheriff's Office.
Photo by: KTVQ

"The focus that we put on was enforcement prevention and treatment," said Lt. Robert Lester of the Yellowstone County Sheriff's Office. "So the goal of the task force is to eliminate impaired driving incidents, specifically fatalities. The goal with this conference was to bring good training into Montana because you have to go to Washington, D.C., for national conferences, Nashville, things like that. But why not have one here in Billings, Montana, for our people."

Lester is also the chairman of the task force.

He said the symposium brought good information to the nearly 170 who attended.

"So this training here provides people with what to look for current drug trends," he said. "What's happening in our community and nationwide with the drug trends. Right now, (Dr. Karl) Citek is talking about how alcohol affects eye movements and why officers do the finger test. Things like that."
And the lieutenant says dealing with DUls is getting more challenging.

"Fighting impaired drivers is a challenge that we've been facing since the creation of alcohol and vehicles mixing together," Lester said. "I mean, we've already had people you know driving on the influence of methamphetamine, marijuana, alcohol but now with the legalization (of marijuana), we're planning to see a spike and impaired driving."

He said it's important to know how to plan ahead to avoid driving drunk.

"If you don't plan ahead, you go out, you start drinking, decision making changes," Lester said. "You decide to drive home. We want you to plan. If you know that you're going to do that and you have a plan in place, hey, my ride's here, it's 10 o'clock. I gotta go. It's time to go. We don't want you to get behind the wheel and drive it."

Lester said a lot depends on education, and that's the important part to teach people about the problems of drinking and driving under the influence.

He also says parents can be a big part of the teaching about impaired driving.

The symposium brought together those working in law enforcement, therapy and other professions dealing with drugs and alcohol.
The Yellowstone County DUI Task Force Scholarship in Memory of Roger Gordon supports students who are sophomores through graduate students enrolled full-time in the Counseling and Rehabilitation, Psychology, Sociology, or Criminal Justice programs. Applicants must be a permanent resident of Yellowstone County.

Roger Wayne Gordon, born May 10, 1934, was a long-time resident of Billings and had a love for automobiles, a passion he would carry through his entire life; he first “borrowed” his Dad’s car at the age of nine. As a teenager, he loved to race cars at the various local tracks around Billings. He also loved the outdoors. As a young man, Roger spent a large portion of his summer vacations with his family at their cabin at East Rosebud Lake, where he helped build trails in the surrounding mountains.

Roger attended Senior High School as a member of the Class of 1952 and developed lifelong friendships with his many classmates. He attended Carleton College in Northfield, Minnesota, graduating in 1956. He married Alice Ann Engel that same year and then, in 1959, Roger and Alice moved back to Billings, where they raised three children together before divorcing. Then, in 1997, Roger married Carolyn Egeland, separating in 2004.

Roger spent most of his adult life in Billings. After honing his car sales skills at Lew Chevrolet, in the 1960s, Roger became a partner in, and eventually the sole owner of, Empire Motors. Roger was known to all as a great salesman and a loyal employer. He also cherished his many friendships and loved driving his convertible around the streets of Billings. Roger was an avid racing fan and, on many Sunday afternoons, could be found simultaneously watching two televisions, each on different stations, covering different races.

Roger faced many challenges in life but always tried to persevere and use his challenges as a means to help others. In 1945, he contracted polio and was hospitalized for a summer. Then, during Roger’s senior year in college, he lost a leg as a consequence of a skiing accident. Early in his adult life, Roger also developed a drinking problem. However, in 1974, with the help of Alcoholics Anonymous (AA), the support of his many close friends and his strong belief in Jesus, he achieved sobriety. This success remained among his greatest points of pride up to the time of his passing. Drawing from these experiences, Roger became an active member of Mothers Against Drunk Driving (MADD), helped many other people achieve sobriety through AA and worked with the Yellowstone County Amputation Coalition to help others deal with the loss of an arm or leg. Roger also dedicated many years of service to the Yellowstone County DUI Task Force. He strongly advocated for prevention messages targeting the youth of our community.

Roger passed away on May 30, 2018 at the age of 84.
